Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3 and 10, drawn to a gift mediating method for mediating a gift to be presented from a sender to a receiver comprising a gift-changing step, classified in class 705, subclass 26.
- II. Claim 4, 8, 11 and 15, drawn to a gift mediating method comprising a letter-of-appreciation accepting and sending step, classified in class 705, subclass 26.
- III. Claim 5, 9 and 12, drawn to a gift mediating method comprising a letter-of-rejection accepting and sending step, classified in class 705, subclass 26.
- IV. Claim 6-7 and 13-14, drawn to a gift mediating method comprising a gift-designation accepting step, classified in class 705, subclass 26.
- V. Claim 16, drawn to a computer readable medium that causes the computer to perform a designation-accepting step of accepting a designation for rejection, classified in class 705, subclass 26.

The inventions are distinct, each from the other because of the following reasons:

Each of these Inventions are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if

Art Unit: 3625

they are shown to be separately usable. In the instant case, the inventions have separate utility (See MPEP § 806.05(d)) such as:

- A receiver comprising a gift-changing step;
- A letter of appreciation accepting and sending step;
- A letter of rejection accepting and sending step;
- A gift-designation accepting step; and
- A designation-accepting step for accepting a designation for rejection.

Because these inventions are distinct for the reasons given above and the search required for various Groups are not required for the other Groups, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 3625

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
